***Election/Restrictions***

Upon further review, the restriction is withdrawn.

**REASONS for ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

A close prior art, Kimura et al. (U.S. Patent No. 5,452,315), discloses most of the limitations of the claims, but fails to show at least a semi-insulating layer, a first-conductivity-type buried layer and a carrier-depleted layer consecutively formed as viewed from said semiconductor substrate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Irikawa et al. (illustrates an InP current blocking layer), Knight et al. (illustrates a DFB laser with a quaternary current blocking layer) and Yamada (illustrates a modulator).
